

POLICE DEPARTMENT MONTHLY REPORT

January 10, 2012

There might not be a lot of snow but the cold weather is still having the usual effect on crime. The Holiday season also has a large part to do with December activity being down as a lot of people are gone in December.

The statistics that are typically given may group several underlying crimes together and do not reflect if an arrest was made or not. If, there is a specific type of activity Council would like to see tracked please let me know. As an example I'll break down Domestic Violence. During December the police department responded to eleven (11) domestic violence related calls. Of those four did not result in criminal action, two resulted in arrests for assault, three in arrests for harassment and two are still under investigation.
